PUNE INSTITUTE OF COMPUTER TECHNOLOGY DHANKAWADI, PUNE – 43.

SCHEDULE OF LAB EXPERIMENTS

Date: 25/06/2025

DEPARTMENT: Computer Engineering

CLASS: T.E

ACADEMIC YEAR: 2025-26

SEMESTER: I

SUBJECT: Database Management System Laboratory

SUBJECT: Database Management System Laboratory LAST DATE			
LAB EXPT. NO	PROBLEM STATEMENT	FOR COMPLETION	
	GROUP A	12 1.1. 2025	
1	ER Modeling and Normalization:	12 July 2025	
	Decide a case study related to real time application in group of 2-3 students and formulate a problem statement for application to be developed. Propose a Conceptual Design using ER features using tools like ERD plus, ER Win etc. (Identifying entities, relationships between entities, attributes, keys, cardinalities, generalization, specialization etc.) Convert the ER diagram into relational tables and normalize Relational data model. Note: Student groups are required to continue same problem statement in order to design and develop an application as a part Mini Project. Further assignments will be useful for students to develop a backend for system. To design front end interface students should use the different concepts learnt in the other subjects		
	also.	18 July 2025	
2.	A. Design and Develop SQLDDL statements which demonstrate the use of SQL objects such as Table, View, Index, Sequence, Synonym, different constraints etc. B. Write at least 10 SQL queries on the suitable database application using SQL DML statements		
3.	SOL Queries all types of Join, Sub-Query and View:	26 July 2025	
J.	Write at least 10 SQL queries for suitable database application using SQL DML statements. Note: Instructor will design the queries which demonstrate the use of concepts like all types of Join, Sub-Query and View		
4.	Unnamed PL/SQL code block: Use of Control structure and Exception handling is mandatory. Suggested Problem statement:	1 Aug 2025	
	Consider Tables: 1. Borrower(Roll_no, Name, Date of Issue, Name of Book, Status) Fine(Roll_no, Date, Amt)		

	 Accept Roll_no and Name of Book from user. Check the number of days (from date of issue). If days are between 15 to 30 then fine amount will be Rs 5per day. If no. of days>30, per day fine will be Rs 50 per day and for days less than 30, Rs. 5 per day. After submitting the book, status will change from I to R. If condition of fine is true, then details will be stored into fine table. Also handles the exception by named exception handler or user define exception handler. 	
	Write a PL/SQL code block to calculate the area of a circle for a value of radius varying from 5 to 9. Store the radius and the corresponding values of calculated area in an empty table named areas, consisting of two columns, radius and area.	
5.	Named PL/SQL Block: PL/SQL Stored Procedure and Stored Function. Write a Stored Procedure namely proc_Grade for the categorization of student. If marks scored by students in examination is <=1500 and marks>=990 then student will be placed in distinction category if marks scored are between 989 and 900 category is first class, if marks 899 and 825 category is Higher Second Class. Write a PL/SQLblock to use procedure created with above requirement. Stud_Marks(name, total_marks) Result(Roll, Name,	8 Aug 2025
6.	Class) Cursors: (All types: Implicit, Explicit, Cursor FOR Loop, Parameterized Cursor) Write a PL/SQL block of code using parameterized Cursor, that will merge the data available in the newly created table N_EmpId with the data available in the table O_EmpId. If the data in the first table already exist in the second table then that data	22 Aug 2025
7.	Database Trigger (All Types: Row level and Statement level triggers, Before and After Triggers). Write a database trigger on Library table. The System should keep track of the records that are being updated or deleted. The old value of updated or deleted records should be added in Library Audit table.	29 Aug 2025
8.	Database Connectivity: Write a program to implement MySQL/Oracle database connectivity with any front end language to implement Database navigation operations (add, delete, edit etc.)	05 Sep 2025
	Group B-	

	operations, SAVE method, logical operators etc.).	
10.	MongoDB Aggregation and Indexing:	19 Sep 2025
	Design and Develop MongoDB Queries using aggregation and indexing with	
	suitable example using MongoDB	
11.	MongoDB Map-reduces operations:	26 Sep 2025
	Implement Map reduces operation with suitable example using MongoDB.	1
12.	Database Connectivity:	03 Oct 2025
• • •	Write a program to implement Mongo DB database connectivity with any front	
	end language to implement Database navigation operations(add, delete, edit	
	etc.)	
	Group C- Mini Projects	
1.	Using the database concepts covered in Group A and Group B,	10 Oct 2025
	develop an application with following details:	
	1. Follow the same problem statement decided in Assignment -1 of	
	Group A.	
	2. Follow the Software Development Life cycle and other concepts	
	learnt in Software Engineering Course throughout the	
	implementation.	
	3. Develop application considering:	
	a. Front End:	
	Java/Perl/PHP/Python/Ruby/.net/any other	
	language	
	b. Backend: MongoDB/ MySQL/Oracle	
	4. Test and validate application using Manual/Automation testing.	
	4. Test and varidate application using Manual Automation testing.	
	5. Student should develop application in group of 2-3 students and	
	submit the Project Report which will consist of documentation	
	related to different phases of Software Development Life Cycle:	
	• Title of the Project, Abstract,	
	Introduction	
	Software Requirement	
	Specification	
	Conceptual Design using ER features, Relational Model in	
	appropriate Normalize form	
	Graphical User Interface,	
	Source code	
	Testing document	
	Conclusion.	
	Note:Instructor should maintain progress report of mini project	
	throughout the semester from project group. Practical examination will	
	be on assignments given above in Group A and Group B only	
	Mini Project in this course should facilitate the Project Based Learning among	
	students	
	Question -Answer session with students about all above experiments	At the end of te

Head of Department Dr. B.A. Sonkamble

Subject Coordinator Mrs. P. P. Joshi
